# Inaugural Address

by Roland J. Desrochers

Delivered by Roland J. Desrochers  
on January 4, 1960

Father Houde, Rev. Harris, Former Mayor Gilman, Members of the City Council, Citizens:

This year of 1960 will be an important one for all of us. It will be a crucial year, one in which we must decide whether to retrench or whether to go ahead with the growth which is underway here in Franklin. I SAY WE MUST GO AHEAD.

Recently I overheard one of our citizens say (and I believe that it was said for my particular benefit) that he didn't want any more industries coming in to Franklin, because it was costing him too much in taxes to pay for them. Certainly no one who has analyzed the situation can say that it is costing the taxpayers money to get new industries. As a matter of fact money spent in this manner is the wisest investment in Franklin's future that we can ever possibly make, because aside from the pure money picture these new industries give our citizens, both young and old, hundreds of job opportunities which we would not otherwise have, and without which we cannot hope to survive.

The tax burden in Franklin is high, there is no denying that, as a matter of fact it is very near to the breaking point. Yet we cannot afford to sacrifice all that we are about to gain just so we can cut the tax rate by a dollar or two and save ourselves five or ten dollars this year on our tax bill.

We all know the old saying, "You have to spend money to make money." Well, it applies to cities as well as to individuals. I believe we are spending money to make money and I will advocate to this year's Council that it continue in this manner—that we spend whatever money is necessary, and that we get a dollar's worth for every dollar that we spend. **THIS WILL PAY DIVIDENDS IN THE LONG RUN.**

Although most of the large projects have been completed or nearly completed there are several items facing us this year, and I shall mention a few of them.

**WAGES**—The council has received or will receive shortly from all City departments requests for an increase in wages. These requests will be turned over to the Finance committee for study. We have given wage increases twice in the past three years, and I believe our wages are now in line with wages paid by other Cities and Towns our size and with local industry. If they are not then they should be adjusted, but I feel that we cannot grant a general wage increase if we are not out of line.

**RECEIVING OF GOODS AND SERVICES**—I will suggest to the Finance committee for their study a system of receivers so that we will know for sure that items we are billed for have been received. I want to

impress on all Department heads the necessity for making out purchase orders for all Goods and Services which they buy.

**BUDGETS**—For the orderly and economical operation of the City it is necessary to get onto an operating budget as soon as is humanly possible. In line with this I am requesting all departments to submit their budget requests to the Finance committee before the end of January so that we can get onto an operating budget by the first of March.

**PUBLIC WORKS**—I have not been completely satisfied with the operation of our Highway Department this past year, but I believe that now that our large projects are out of the way, and under the direction of the new committee, that the efficiency of this department will increase as it must.

Our streets are in very poor condition and we must do the necessary patching, oiling, and repairs to bring them into decent shape this year. We cannot put this off any longer or we will be faced with serious and expensive reconstruction problems later on.

Sidewalks throughout the City as a whole are very bad. I ask the Council to start a program of repairing sidewalks by appropriating \$3,000.00 each year to be spent equally about the City for this work.

In the past couple of years we have been buying more and more of our cold patch, sand, and gravel. I suggest to the Highway committee that this practice be stopped, and that we again start mixing our own patch, use our own sand and gravel and in so doing we can save a considerable amount of money for the City.

Since the loss of our City mechanic we have not secured a replacement for him. I suggest to the Highway committee that they do their utmost to obtain a new City Mechanic, because this is an area where substantial savings can result.

The program of reconstruction of some of our streets which was started four years ago should be continued and I would like to suggest to the Council the following areas for reconstruction or resurfacing.

1. Prospect Hill
2. Finish School Street.
3. Central Street—from Willow Hill to City Line.

I want the City to investigate Soil Cement. This is a relatively new method of street reconstruction to our part of the country. I have made arrangements with representatives of the Portland Cement Association to meet with the Highway Committee shortly and explain this method to us. It may be worthwhile, at least we should look into it.

Our trucks are in poor condition and we must once again start on our plan of replacement of the oldest of these vehicles. The sooner we start the better off we will be. Trucks which are broken and in the garage for repair do not plow much snow.

**POLICE**—The efficiency of our Police Department has increased quite a bit during the past year under the excellent committee which we had. There is still much room for improvement, and I insist that

this department must continue to improve so that we can give our citizens the type of Police Protection which they so rightly deserve.

**FIRE**—Our new fire truck will be delivered about the first of June. This will bring our Fire Department up to date with all first class equipment.

**LAND AND BUILDINGS**—Last year at my insistence we spent money to remodel the public rest rooms in this building. Any of you who have had occasion to enter them since will surely agree that it was money well spent. This year I will ask the council to have the walls and floor refinished in this main hall. It is very sorely needed.

**HEALTH & WELFARE**—Last year the cost of operating this department was down, and with the excellent industrial picture which we now have we can look forward to continued low operating costs here. Whenever this department's costs are low I am very pleased, because it means that our people have steady employment and that is what they need and want.

**DANIELL PARK DEVELOPMENT**—I am looking forward to seeing this project get nearer to completion this year. We must continue the sidewalk program there, and also start to install curbing to control the flow of surface water.

**SCHOOLS**—Under the new five man school board I am sure that our schools will be better served. We can look forward to increased costs here and I want to ask the board to be absolutely sure of the need for any money which they request. We all know there are certain things which have to be done and I feel that the council will be very honest and above board in their dealings with the school budget requests. I am not appointing a school committee this year, because I feel that it is a committee which has no authority or responsibility therefore it is not needed.

In closing I want to say that I believe we have a council which can do a splendid job of running the City and I am sure that they will. On behalf of the council, city officers, and myself I want to wish each of you a very Happy and Prosperous New Year.

## CITY OF FRANKLIN, NEW HAMPSHIRE FOR THE YEAR 1960

January 25, 1961

To the Honorable Mayor and City Council  
City of Franklin  
Franklin, New Hampshire

Gentlemen:

At your request and in accordance with the City Ordinances, I have made an examination of the books and underlying records of the City of Franklin for the year ended December 15, 1960 and am submitting my report consisting of exhibits, supporting schedules and comments.

### SCOPE OF AUDIT

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and of the supporting evidence as was considered necessary under the circumstances. Verification letters were mailed to a substantial number of outstanding Property and Poll Taxes. Except for the Taxes, Accounts Receivable and some year-end adjustments, the general books of the City are kept on a cash basis and hence reflect cash receipts and disbursements only.

### BALANCE SHEET - GENERAL FUND

#### Exhibit A

The Balance Sheet, General Fund discloses the financial condition of the City of Franklin as at the close of business December 15, 1960. A Comparative Balance Sheet, Exhibit A, Schedule 3 shows the increases and decreases in the various accounts between the years 1959 and 1960.

#### CASH ON HAND AND IN BANKS—\$47,426.08

Cash on hand was verified by count as at the close of business December 15, 1960 while the cash in the bank was reconciled to both the bank statement and the independent verification received directly from the depository. All checks cancelled during the year were compared with the cash disbursement records and the receipts were traced to the bank deposits.

#### ACCOUNTS RECEIVABLE—\$1,891.93

A listing of the open Accounts Receivable and the Accounts Receivable Parking Area Contracts was in agreement with the control. Letters of confirmation were mailed on the Accounts Receivable Parking Area Contracts. During the year, the Board of Mayor and City Council abated uncollectible accounts totalling \$262.38.

**TAXES RECEIVABLE—\$120,833.28**

A detail of the activity in the tax account is shown on Exhibit A, Schedule 1. The differences between the control and the detail were substantially the same as in the previous year. The cash receipt stubs representing collections on Poll, Property and Head Taxes were checked to the cash records. I tested the postings to the Tax Warrant books. All abatements issued during the year were traced to the Warrants. In addition, several hundred verification letters were mailed to the unpaid accounts and any differences reported to me were thoroughly examined. A substantial number replied concurring with the balances shown on the books.

The 1960 Tax Warrant was completely footed and proved to the control. The tax rate of \$45.80 per thousand as approved by the State of New Hampshire Tax Commission was confirmed by direct correspondence. Collections on Property Taxes for the year represent 85% of the levy as compared with 84% the preceding year. Taxes for the years 1953 to 1955 which appeared uncollectible were abated.

**UNREDEEMED TAX SALE—\$15,354.33****PROPERTY ACQUIRED BY TAX DEED—\$1,250.11**

These items represent property acquired because of non-payment of taxes and were accepted as shown on the books.

**HEAD TAXES RECEIVABLE—\$5,950.00**

The uncollected Head Taxes Receivable for the years 1959 and 1960 are represented by the above figure. When collected, these items will be paid to the State of New Hampshire. A substantial number of the Head Taxes were circularized along with the Poll Taxes.

**DUE FROM THE STATE OF NEW HAMPSHIRE—\$1,505.00**

Although the State Tax Commission could not confirm the amount which the City will receive on the 1960 Railroad Tax, the estimate of \$1,500 appears to be a reasonable amount.

**TEMPORARY LOANS IN ANTICIPATION OF TAXES—\$150,000.00**

The balance due the First National Bank of Boston on borrowings in anticipation of taxes was confirmed directly with the bank. This amount is \$55,000 higher than the liability at the end of the preceding year. It is my recommendation that periodic payments be made to eliminate this obligation.

**RESERVE FOR HEAD TAXES—\$6,597.50**

This caption represents the City's liability to the State of New Hampshire on Head Taxes when collected.

**PARKING METERS—\$12,678.70**

The cash for the Parking Meter Fund is included in the General Fund Cash. The Police and Highway Departments, each, were credited with \$3,000 from the Parking Meter Fund.

## **SURPLUS—\$18,277.73**

Exhibit A, Schedules 2, 2A, 2B and 2C show the results of budgetary operations for the current year and further support the amount charged to Surplus. The Surplus account was charged with \$47,000 for the current year's budgetary operation and coupled with the overexpended balances and deficiency in estimated revenue, the Surplus account has been reduced to \$18,277.73.

It is my recommendation that no further appropriations be made from the Surplus account until the tax anticipation note has been reduced.

## **BALANCE SHEET - GENERAL INDEBTEDNESS**

### **Exhibit B**

The Balance Sheet, General Indebtedness, discloses the City's liability with respect to bonds and long-term notes as at December 15, 1960. Exhibit B, Schedule 1 details the indebtedness. All of the bonds and coupons cancelled during the year were produced for my inspection.

The cash in the banks was reconciled to both the bank statements and the confirmation received directly from the depository.

The amount due from the Water Works is offset by the contra Water Works bonds shown on the liability side of the Balance Sheet. The Water Department liquidates this liability from its own funds.

## **BALANCE SHEET - TRUST FUNDS**

### **Exhibit C**

The Balance Sheet, Trust Funds, records the Assets and the sources of such Assets in the custody of the trustees of the Trust Funds.

### **CASH IN THE BANKS—\$40,067.30**

The cash in the commercial and savings banks was reconciled to the bank statements as well as the confirmations received from the depositories.

### **INVESTMENTS—\$84,844.19**

The securities as shown on Exhibit C, Schedule 1 were examined in the presence of a trustee of the Trust Funds.

## **OVERSEER OF THE POOR—STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS**

## **SCHOOL DISTRICT—STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS**

## **PUBLIC LIBRARY—STATEMENT OF CASH RECEIPTS AND DISBURSEMENTS**

I examined the books and underlying records of the above departments. The cancelled checks were compared with the cash disbursement records and reconciled to both the bank statement and the bank confirmation.

Since the departmental records are kept on a cash basis, any unpaid invoices at the end of the year are reflected in the above schedules. The unpaid invoices in the School Department total \$1,749.14 as compared with \$2,761.68 the previous year.

#### **PAYROLL**

All payroll checks cancelled during the year were examined and the total payroll charges were proved to the Appropriation accounts.

#### **CITY CLERK**

I tested the books and records in the office of the City Clerk and traced the daily register tapes to the cash receipt book. In addition, I tested the entries on the automobile permits, dog licenses as well as other business licenses.

### **GENERAL COMMENTS**

The Tax Warrant for the year was not delivered to the Tax Collector until November 1960. It seems to me that every effort should be made to present the Warrant sooner than this. First, to relieve the Tax Collector's office from a terrific peak load collecting taxes in a matter of a few weeks. Secondly, to eliminate additional borrowings to meet the City's obligations which would not have been necessary if tax revenue had been collected. Thirdly, to save the City interest expense on this additional borrowing.

In conclusion, may I summarize the following salient items which require your careful consideration:

1. Reduction of Temporary Loans in anticipation of Taxes.
2. Elimination of further charges to Surplus.
3. Preparing and submitting the Tax Warrant at an earlier date.

I wish to express my appreciation to all the City Officials and the members of their staffs for the cooperation and courtesies extended me during the audit.

Respectfully submitted,

LEONARD D. RICCIO

Certified Public Accountant

## REPORT FOR 1960

Another milestone, the fifty-third, has been passed in the life of the community's public library, which was opened in 1907. The use of the various facilities offered by the library collection grows each year, with 1960 exceeding the business of every year since 1941, with the year's total circulation of 53,556 books, magazines, maps, pictures, and other file material. Of this grand total there were 18,515 items handled through the children's department. Additions for the year were 832 books, of which 171 were juvenile titles. Gifts numbered 113 volumes. The cataloged book collection stands at 31,526 after the discard of 244 worn-out or lost volumes.

Franklin's reading score was 8.17 books per capita, that per borrower 14.5 books, while the reading average was 37.1% adult fiction, 28.5% non-fiction, and all juvenile reading was 34.4%.

There were 162 magazines received regularly, of which 48 were gifts. Eight daily or weekly newspapers continue to be found regularly on the reading tables. Fourteen titles were added to the Memorial Book Shelf. There is a tremendous use made of current and back files of magazines, 4,911 for the year.

New borrowers registered numbered 480, of which 97 were non-residents. There were 80 inactive cards withdrawn, making our active list of borrowers 3,694, that number being 400 larger than a year ago. Last year's circulation in the children's room was a banner year, but 1960 exceeded it by 3,427 books circulated. Book Week in November brought the annual visitation of nearly 500 girls and boys, with their teachers, to see the new books and favorite old ones kept on display that week. Teachers borrowed 65 collections of books for classroom use, a total of 953 books.

Summer hours were in effect from mid-June until after Labor Day. The summer months meant loans to summer camps in the area. The loan of mixed collections of light fiction to neighboring smaller libraries has continued. Through interlibrary loans handled by the New Hampshire State Library we have borrowed 114 books and loaned them 79 of our own titles. There was no silent book auction in the summer, as time was needed for a project connected with our extensive file of back numbers of magazines and the transfer of books from the crowded non-fiction shelves to metal shelves in the basement, new equipment installed after the close of school in June. The Canadian Government colored movies have been in use by many groups and some individuals, with a record of 94 showings to 5,180 viewers.

The bookmobile service has continued every ten weeks, providing greater variety of choice than possible with only the local books. During the year's time over 1,500 additional books have been available through this service from the Extension Division of the State Library. A group of How-to-do-it books was displayed in windows of the New Hampshire Public Service and the Concord Monitor offices, and later circulated from the

library. These books were available through the courtesy of the State Library.

Trustees and members of the library staff have attended out-of-town neighborhood meetings in Sanbornton and East Andover. The librarian has attended a day's meeting of city librarians in Concord. She has spoken on Franklin's libraries on a Golden Glow Group program, also on children's reading at the Elementary PTA Book Fair. There have been no staff changes during the year.

Exhibits at the library have been varied, chief of which have been the Lawrence Pohle arrangements of sea shells, foreign stamps on original covers, the Yvonne Morrill collection of State plates (china), the Archie Morrill collection of miniature dogs, the Elsie Lambeth display of embroidery stitches of one hundred years ago, the Joseph Ayotte group of early post office covers, Sandra Parker's collection of miniature horses, the Lois Bliss exhibit of Mark Twain material, the Arthur Sawyer photographs of Main street residences, Jane Addams exhibit, First Day covers, and Christmas customs of foreign lands. Girl Scout Troop No. 275 made posters in recognition of National Library Week and six of the outstanding posters were displayed at the library.

Kind friends have presented books, magazines, pictures, local documents, a See-Thru thermometer, and a few cash gifts toward book or magazine purchases. Miss Gladys H. Webster presented her mother's college teaching library of nearly 300 books on the Bible and religions. John S. Shepard presented a Radcliffe chair in memory of his mother, Mrs. Alice M. Shepard, who was library trustee for 25 years. Gerald Boyce generously gave one hundred dollars to be added to the Contributors Trust Fund. During the year Dr. Louise Kelley has given the library many entertaining and valuable books, including art books.

The Journal-Transcript and the Concord Monitor have given the library good publicity relative to the facilities and services of the library, which the trustees and the librarian have appreciated. Mention should be made of the helpful assistance given by certain high school personnel in connection with the Canadian film service (colored movies).

A picture called "The Magic of Reading," taken of Brian Pepler in the children's room during National Library Week, won a New England Weekly Publishers' Association Feature Award for the editor of the Journal-Transcript, Richard P. Lewis. A welcome addition to the juvenile book collection was the ten volumes of the True Book Library of Science and Fascinating Facts, published especially for children of the primary grades.

The 1960 edition of the Encyclopedia Americana, in 30 volumes, was an important replacement in the adult reference group, as it replaced the 1954 edition. In the spring, the library handled the New Hampshire Library Survey questionnaire of 92 questions and several pages listing books to be checked for holdings in this library, the survey being conducted by the Public Administration Service of the Department of Government at the University of New Hampshire, Durham.

The usual good care has been given the buildings and grounds. There was considerable refinishing of library furniture during the summer months. A major repair job was done on the roof in August, the work being done by the Laconia Roofing and Siding Company of Rutland, Vt., at a total cost of \$1,017.50.

The Woman's Club uses Library Hall for most of its meetings of the club year, while the Golden Glow Group (Senior Citizens) meets regularly twice a month, except during July and August, in the Draper room. The Board of Library Trustees meets there once a month, omitting the July and August meetings. Other groups or committees make occasional use of either Library Hall or the Draper room.

Notice of the Shieling Trust Fund Award of \$1,000 for the joint purchase of books came to the Franklin Public Library and the four neighboring libraries of Belmont, Bristol, Canterbury and Tilton late in the year. This was a most welcome piece of news to these libraries. The intention of the donor is that the fund will provide for the selection of books to be chosen at bi-monthly meetings of the group, the books selected to be of the type that the individual library would otherwise be unable to purchase. These chosen libraries are now part of the book-purchasing pool plan at the State Library whereby book orders go through their hands, entitling the libraries to greater discounts than individual libraries can command.

The library shelves grow more crowded each year, even with the discard of worn-out or obsolete books. The time is approaching when it will become necessary to make provision for more stack room shelving, perhaps a new wing. This is a thought to keep in mind, for which to make plans, too.

Whatever service the library is able to give is made possible by the cooperation of the trustees, the staff and the community the library serves. The librarian appreciates this cooperative effort and bespeaks its continuance to an ever greater degree from year to year.

# Annual Report of the Superintendent of Schools

## For the Year Ending Dec. 15, 1960

I herewith submit my annual report as Superintendent of Schools for the year ending Dec. 15, 1960.

### Personnel

This year saw ten changes in our professional personnel. These changes took place as follows: six left the system, three of these took new positions, one retired, one deceased and one who was on a substitute basis; two transferred to other positions and two were newly created positions.

### Curriculum

In my last annual report I referred to a committee of teachers developing a sequential coordinated mathematics program throughout our school system. The work in grades one through six has been completed and is in the process of being printed. As soon as it is bound it will be placed in the hands of each teacher for his use and guidance.

We also had a guidance committee that recommended a complete program of testing for kindergarten through grade twelve. This testing program has been instituted and is already supplying us with valuable information in the guidance of our pupils. It is also giving us a basis for evaluating the strengths and weaknesses of our school program.

The union workshop for teachers held for two days prior to the opening of school this past fall focused attention on the teaching of Language Arts—English for both days. From this jumping off point we hope to continue this study and develop a guide for teaching this subject as has just been completed in mathematics.

In the area of education for the academic superior children we are ready to move forward at two points. The first is a program of acceleration for pupils in kindergarten through grade three. For a few pupils this will mean that they will complete the four years work in three. Others that participate in this program will accelerate to a certain point then study new material that will enrich the basic work.

The second point at which this program will start is grade seven. Here the pupils will accelerate certain subjects then spend the time gained studying new material to enrich the basic work.

As these programs develop we look forward to a substantial upgrading of our education program.

### Transportation

In an effort to overcome deficiencies in the school transportation system a new bus was purchased and two other steps were taken. The first was to obtain school bus drivers outside the custodian staff and the second was to place our school buses on regular maintenance checks instead of waiting for breakdowns and then repairing them. It is still too

early to reach any conclusions as to the effectiveness of this program since it has been in operation too short a time. When school opens next fall this method of dealing with our transportation system will be thoroughly evaluated in terms of effectiveness and economy.

Each school day approximately 700 school children are transported each morning and again at the close of school. Since we have only four school buses whose gross capacity is 228 several trips in the morning and afternoon are necessary. This means that some students start early in the morning while others must wait up to fifty minutes after school before being transported home.

### **Repairs and Maintenance**

The repairs and maintenance work accomplished this past year has been most gratifying. With adequate personnel we were able to keep our school grounds maintained without sacrificing the cleanness of our buildings. During the dry season when mowing lawn was at a minimum we were able to clean the rust from and repaint all the steel bracing for the bleachers on the home side of the football field.

At the Senior High School new shades for thirty-four windows were purchased, the bottom floor corridor and rooms were painted and stair wells on both ends of the building from bottom to top; in one room fluorescent lights were installed.

In the Junior High School four rooms were equipped with fluorescent lights and a new sub-floor covered with asphalt tile was laid in the corridors.

At the Rowell School approximately 1800 square yards of hot top was laid, fencing belonging to the school department at Nesmith School was moved to Rowell and installed between the property line of the school department and property owners on Freedom Drive and North Sulloway Street, and the school department land in front of the school to Freedom Drive was graded and seeded.

In addition to these major improvements the physical conditions in all buildings were maintained or in the case of breakdown, beyond repair, new equipment was installed. We can say that this year was one of real gain in bringing our property and equipment toward good condition.

### **Equipment**

Through the efforts of Franklin combined with the National Government in making use of the National Defense Education Act substantial amounts of needed equipment to upgrade our educational effort has been purchased this year.

Rowell School was equipped to receive educational telecasts from the University of New Hampshire. The Senior High School Science Department has received substantial up-to-date equipment, and the Foreign Language Department has an electronic laboratory for use in the teaching of foreign languages.

Continued participation in this program for a few more years should enable us to completely modernize our Science, Mathematics and Foreign Language offerings.

### **Looking Ahead**

The major problem confronting our educational system is proper building to carry out the education program that is being developed with the increased enrollment at Franklin High School. This building was built approximately twenty years ago to accommodate about 325 pupils. This fall 387 pupils were enrolled and next year we anticipate 413 or more pupils. This figure will gradually rise each year and in September of 1966, it is expected that more than 500 pupils will be enrolled.

These figures only take into account pupils that are presently enrolled in the elementary schools of Franklin with ten additional tuition pupils from the nearby town that sends tuition pupils here.

Should any growth in our population occur from families moving to Franklin these figures would be far too conservative and the problem of proper housing our pupils would be even more acute than at present.

In an effort to meet this situation the Board of Education has been holding regular monthly meetings to study the problem thoroughly and come forth with recommendations for action by our city.

At this time I would like to express my appreciation for your help and for the fine educational climate that has prevailed in our city this year.

# Report of the School Nurse

The school health program aims to help the pupils improve and maintain their own health and to take their share of responsibility for the health of others. It encourages parents to have their children visit their personal physicians and dentists. It assists the families in the use of community resources for the correction of defects and maintains a safe and healthful school environment.

The following is a digest of the major activities of the health program in the Franklin Schools during the past year.

On February 4, 1960, a Tuberculin Skin Test was given with 735 children, teachers, janitors, and lunchroom workers participating. Twenty-eight children had a positive reaction to the test and as a result were x-rayed. While the results of the x-rays did not show any active tuberculosis, nevertheless, chest clinics were held in February, 1960 and June, 1960. At this time ninety-two children, all positive reactors to previous Tuberculin Skin Tests, were examined by Robert Kerr, M.D. of the N.H. Tuberculosis Association.

A Toxoid Clinic co-sponsored by the Franklin School Health Department and the Franklin Visiting Nurse Association was held during the months of March, April and May with 254 children in attendance.

During the month of September, classroom inspections were held in the Junior High School and in all the elementary schools to eliminate skin infections, pediculosis, and children not meeting the New Hampshire Smallpox Vaccination Law.

No disease in modern times causes as much fear and anxiety, particularly among parents, as does Poliomyelitis. We are pleased to say that at the Poliomyelitis Clinics which were held during the months of April and May, 1960, 1,115 children were inoculated.

The majority of these children received their fourth injections of polio vaccine. I feel that the school children of Franklin are well protected because, in addition to these clinics, many children have been inoculated by their own physicians.

A Diabetes Detection Clinic was held at the Senior High School in February, 1960. The permission of one hundred and eighty-five children was secured and these children were tested. We are pleased to report that all these tests were negative.

The pre-registration clinic was held during the month of May with one hundred and seventeen children registering. These children were weighed, measured, received a vision and a hearing test at the clinic and were given a physical examination by their own physician.

Physiotherapy is an important factor in the treatment of many physical defects, which if untreated, may lead to serious handicaps. Miss Mary Bullock, Physiotherapist from the New Hampshire State Board of Health, visited the "Treatment Center" in December, 1959 and April, 1960. Thirty-five children were checked by Miss Bullock. The exercises of these children were supervised and changes were made as needed.

These children were checked at intervals at the orthopedic clinics which were held in Laconia, Concord, and Manchester.

Our health program is constantly aware of the relationship between proper diet and good physical health. During the past year the Nurse's Hot Lunch Project served 3,371 meals. The money for these lunches was made available through generous donations received from the Franklin Kiwanis Club, the Franklin Lions Club, the Franklin Parent-Teacher Associations, the Timely Club, the Franklin Rotary Club, and the Tobie Trust Fund.

We all agree on the importance of a physical examination prior to entering the field of sports. For this reason one hundred and eighty-seven pupils were examined before participating in the athletic program of the Franklin Senior High School.

The early detection of hearing loss and the prompt administration of suitable treatment are requisites for a good school hearing conservation program. In view of this fact, 1,630 pupils received the Puretone Hearing Test and, as a result, forty children were found to have a hearing loss of ten per cent or more in either or both ears. These children were checked by a physician and received the necessary treatment.

Since approximately fifteen per cent of our school children have significant vision impairments, an efficient vision screening program becomes of considerable importance in the development of a total school health program. During the school year of 1959-1960, 1,700 pupils were checked with the Massachusetts Vision Testing Instrument. Children who do not perform satisfactorily at the testing levels are referred to their own eye specialist for a complete eye examination.

An important adjunct to our health program is the Franklin Youth Counseling project which conducted a weekly session during the school year.

Among other things, I have been impressed by the fact that many of our children are receiving dental care. This is but one of the many instances of good home and school cooperation in our health program.

It is my pleasure at this time to extend my personal gratitude to all persons and organizations who have in any way contributed to the Franklin School Health Program.

Respectfully submitted,

MARION MOYNIHAN, R.N.
